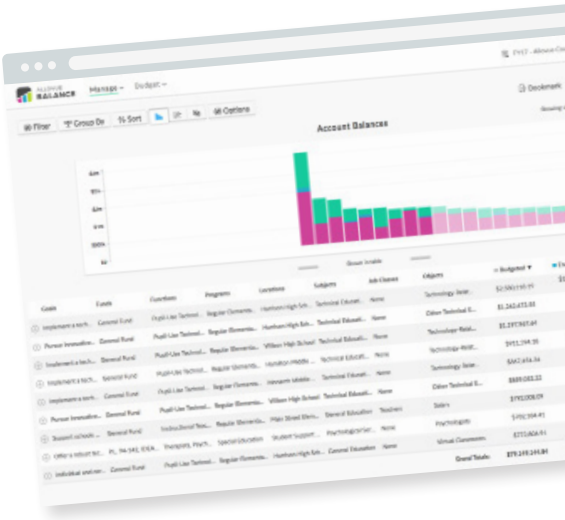
Allovue provides innovative education finance technology solutions to educators nationwide to help them budget, manage, and evaluate school spending. To date, we have assisted districts across 20 states to import and analyze over $36B in K-12 budgets. We also provide districts with supplemental services including funding equity analysis, diagnostic surveys, and financial management training.



BALANCE

Balance is an online software platform designed to help K-12 administrators access, understand, and control their financial data. Built by a team of education finance experts, *Balance* integrates seamlessly with your existing accounting system. With the ability to collaboratively develop staffing and spending plans aligned to district goals, view account balances and track spending, and connect budgets and expenditures to performance metrics and other non-financial indicators, *Balance* makes strategic and equitable financial management a reality.
